Charles Holt Carroll, *Organization of Debt into Currency*. Edited with an Introduction by Edward C. Simmons. New York: D. Van Nostrand, 1964. This is a brilliant series of essays written between 1855 and 1879 showing how a fractional reserve monetary system causes depressions. Argues forcefully for a 100-percent-reserve gold standard throughout. http://www.mises.org/books/org_of_debt/Contents.aspx
